Per Nevada Revised Statute 630.161, "The Board shall not issue a license to practice medicine to an applicant who has been licensed to practice any type of medicine in another jurisdiction and whose license was revoked for gross medical negligence by that jurisdiction."

The Board's staff conducts an investigation into your background during the application process. If staff becomes aware of circumstances** warranting a personal appearance at a Board meeting prior to acceptance of your application for licensure, your application must be completed 45 days prior to any regularly scheduled Board meeting in order for your appearance to be scheduled for that meeting for consideration of acceptance of your application. Under Nevada law, a public body cannot hold a meeting to consider the character, alleged misconduct, professional competence, or physical or mental health of any person unless it has given written notice to that person of the time and place of the meeting. The written notice must be sent by certified mail to the last known address of that person at least 21 working days before the meeting. A public body must receive proof of service of the notice before such a meeting may be held.

** You **may** be required to personally appear before the Board for acceptance of your application for licensure if you are applying for a license by Endorsement or for a restricted license.

** You **may** be required to personally appear before the Board for acceptance of your application for licensure if you have in any way ever been involved in any malpractice awards, judgments, or settlements in any amount.

If, at the time you meet with the Board, the Board votes to deny or not accept your application for licensure, this denial or non-acceptance of your application may become a reportable action to the National Practitioner Data Bank, Federation of State Medical Boards of the United States, Inc. and American Medical Association, among other entities.

License Descriptions

Active / Unrestricted License

This license gives full and unrestricted privileges to practice clinical medicine in the state of Nevada.

Inactive Status Unrestricted License

This license is an unrestricted license but with an inactive status rather than an active status. The licensee would not be able to practice medicine in the state of Nevada and cannot prescribe. In order to change the status of this license to active, the licensee would have to apply for a status change (an additional application and fee).

Endorsement License

An Endorsement license is NOT RECIPROCITY in the state of Nevada. This license may be granted to applicants who do not otherwise meet all of the requirements for licensure. The applicant must have an active license to practice medicine in the District of Columbia or any state or territory of the United States. The applicant may be required to meet with the full Board for consideration and approval of licensure by Endorsement. If granted, the license would give full and unrestricted privileges to practice clinical medicine.

Restricted License

There are three different restricted license types. They are granted:

- To practice medicine in certain medical specialties for which there are critically unmet needs determined by the Governor;
- To practice medicine in medically underserved area of a county determined by a board of county commissioners;
- For a graduate of a foreign medical school to teach, research, or practice medicine at a medical research facility or medical school – this license expires automatically once the licensee ceases to teach, research or practice clinical medicine in this State at the sponsoring medical research facility or medical school.

Authorized Facility License

There are two different authorized facility licenses. They are granted:

- To practice as a Psychiatrist in a Mental Health Center of the Division under the direct supervision of a licensed Psychiatrist;
- To practice in an institution of the Department of Corrections under the direct supervision of a physician who holds an unrestricted license.

Locum Tenens License

A locum tenens license will be effective not more than 3 months after issuance, and is granted to any physician who is licensed and in good standing in the District of Columbia or any state or territory of the United States, who meets the requirements for licensure in this State and who is of good moral character and reputation. The purpose of this license is to enable an eligible physician to serve as a substitute for another physician who is licensed to practice medicine in this State and who is absent from his practice for reasons deemed sufficient by the Board. A locum tenens license is not renewable.

Temporary License

A temporary license is granted for a specified period if the physician is licensed and in good standing in the District of Columbia or any state or territory of the United States, meets the requirements for licensure in this State, and is granted only if the Board determines that it is necessary in order to provide medical services for a community without adequate medical care. A temporary license is not renewable.

Because you are applying for the privilege of practicing medicine in Nevada, you should know that our state has some of the most stringent licensing requirements and comprehensive investigation programs in the United States.

Via FBI fingerprinting and other investigative modalities, our licensing specialists are likely to discover if data you have submitted on your application is erroneous or incomplete; therefore, you must answer all questions truthfully and completely. Specifically, this includes any sanctions or disciplinary actions you may have experienced during medical school or your postgraduate training, or any involvement you may have had with the legal system, either civil or criminal — criminal to include charges that may have ultimately been expunged, lessened, or dismissed, and no matter how long ago the event(s) occurred.

Explaining and documenting a problem to your licensing specialist will be much less painful than discussing your veracity before the entire Board of Medical Examiners due to inconsistencies between your application and incongruent input from outside sources.
